NOVATEC REVIEW FCT PRICING

(West Sussex, England) SOS Communications is pleased to report that FCT (Fixed Cellular Terminal) Manufacturer – NovaTec, has announced a price review of their TransNova TMG Gateways.

Following a review of the competitive market place currently surrounding the FCT technology, NovaTec has put in place new production methods that are tipped to bring the price of the Company's products in line with the current industry standard.

SOS Communications FCT Specialist, Peter Carter stated 'I am extremely pleased that NovaTec has reviewed their pricing policy. I feel that the new pricing structure will give our resellers more opportunities to make end user sales, resulting in more annual commission payments.'

###

SOS Communications is a distinguished distributor and broker of telecoms systems – enabling true dealer support. We can provide the latest developments within the telecoms industry, from most recognised manufacturers. Operating since 1994, SOS Communications is a distributor and the only recommended repair centre for Toshiba Business Communications Division.
